

The Hormone Holocaust

Must reading for all post tubal women and their families!

Tubal Ligation:

Surgical method of female birth control in which the fallopian tubes are clipped, banded, or surgically burnt.
AKA "tying the tubes".

Post Tubal Syndrome (PTS):

Negative outcomes and Side effects of tubal ligation.

**How and why
women have been
misinformed, misguided,
and lied to
about tubal ligation**

- Learn the signs and symptoms of post tubal syndrome (PTS)
- Learn what steps to take now to protect your health and your rights.
- Learn what you and your family can do to inform others.
-

Repeatedly we hear post tubal women stating,

"I wish I had known this information before my tubal ligation"
It was your right to have been informed.

**Learn
who to call and
who to write
to ask the question....**

"Where is Justice?"
